Pique and Linen Collars and Cuffs to be Worn—Vests Worn With Fall Dresses—To Brighten Leather Seat—To Keep Ice Cream—Proper Duty and Function of Sugar.

COAT SETS OF EMBROIDERED PIQUE.

Fashion had for some time banished the pique and linen collars and cuffs that are so universally becoming, and that add such a crisp, smart touch to the summer suits, but yet this season returns them to us in even greater variety and attractiveness than ever before, according to the Modern Priscilla. There are wide collars and narrow collars, long ones and short ones; in some cases not being satisfied with the limitations of a collar, the pique continues down through the front of the coat and becomes a vest.

These cuffs and collars may be perfectly plain, made of a double thickness of the material stitched together and turned; they may be hemstitched or better yet they may be embroidered in either a simple or an elaborate design. If made at home instead of being purchased at the shops, they can be made, and usually are, distinctive and unusual in cut or embroidery design or possibly in both. It is also easier when making them to adapt them to the required size and shape of the neck and sleeves than it is to readjust those that are already finished.

In this as in everything of its kind, the effectiveness is not dependent upon the elaborateness of the design; a simple vine, an artistic scroll or motif is often most effective.

One vest with collar and cuffs is of pique and the embroidery is eyelet and satin stitch. An attractive motif is arranged in each corner of the collar and cuffs, and a single row of eyelets follows the line of the edge. The embroidery on the vest is brought close to the edge and white crocheted buttons are used for fastening.

Satin stitch and eyelet work is used in the embroidery of the two sets. The scrolls are satin stitch

over a single thread, but they may be worked in simple outlining, if preferred. The low, wide collar is especially attractive for a miss, although any one that affects low collars will probably find it becoming.

BRIGHTENING LEATHER SEAT.

Get the best quality of neat's foot oil (sometimes called "harness oil") and rub it steadily, long and gently into the chair. Do it slowly and do not stop until the leather has absorbed the oil. Let it dry and polish with a chamois skin.

TO PROTECT PICTURE FRAMES.

Grate a fresh raw onion, and apply the juice, full strength, with a soft, clean brush to the gilt frames. This not only removes all former traces of flies, but will prevent their alighting upon the frames or the picture in it.

TO KEEP ICE CREAM.

When ice cream is served and some is left over pack it in a Mason jar, put on a rubber ring and screw the top of the jar on as tight as is possible. Drop the jar into the bucket of salt and ice, in which the ice cream was originally. When wanted the cream will be quite as firm as it was when first opened.

TO COUNTERACT FATIGUE.

If we all understood the proper duty and function of sugar, we should probably be a healthier nation. The trouble with sugar is that most of us eat it in such a way and at such a time that it spoils our appetite for more substantial food.

But sugar, in spite of all the harm that it does when eaten in excess, should be recognized as one of the greatest helps in counteracting fatigue. It is so recognized among the armies at war in Europe. Sweet aeroplanes and German aeroplanes are supplied liberally to the soldiers—as much for the sugar as for the chocolate. And various sorts of sugar candy are given to them. And some women, desirous to help the soldiers to the best of their ability, heard of this demand for sweets and turned their attention from knitting needles and worsteds to candy kettles and sugar and turned to the home-made fudge by the pound for the soldiers.

All of us who have heard a certain lecturer on mountain climbing talk know how often she pauses to say that at just that point she stopped to nibble a cake of a famous brand of milk chocolate. At the boy's and girl's camps throughout the country a cake of chocolate is the usual accompaniment of a hike—and it is the sugar as well as the chocolate that is useful.

For sugar gives quick results in energy. If you are very tired, and nibble a bit of sweet or milk chocolate, or eat a couple of lumps of su-

gar or eat any sweet candy, you will feel within a very few moments noticeably refreshed. And the tired shopper who has not time to stop for luncheon could gain strength for the rest of her work if she would eat a cake of chocolate or some sweet candy and sit still for ten minutes.

Hazel Dawn, last time today in "The Heart of Jennifer."

ZEPPELINS RAID ENGLISH COAST

London, Sept. 12, 5:08 p. m.—An official statement issued here says that another raid by Zeppelins on the east coast was attempted last night. Bombs were dropped by the aerial visitors, the statement says, but there were no casualties and no damage was caused.

Paris, Sept. 12.—Speculative air attacks in every theatre of war are reported tonight from the various capitals.

Aeroplanes and dirigibles were more active yesterday and today, it is believed, than in any previous period of the war.

This activity as summarized in the official reports shows:

German—Zeppelins again bombarded the east coast of England.

A Zeppelin flew over an unnamed Russian Baltic port, dropping bombs. The amount of damage was not reported.

Aeroplanes dropped a few bombs on French positions in Compiègne.

An aeroplane which is said to have been bombarding a Red Cross train was brought down by Russian artillery near the Ponomuk station, west of Dvinsk, in the Courland.

Russian—Seaplanes bombarded a number of German warships in the harbor of Windau.

Hydroplanes are hunting out German submarines which have been discovered operating on the Crimean coast of Russia in the Black sea.

British—Aeroplanes destroyed with bombs a Turkish barracks at Owall in the Dardanelles theatre, killing seventeen soldiers.

French—Aeroplanes bombarded the German base at Ostend, Berlin reports that no damage was done.

An air squadron shelled German aeroplane sheds and hangars at Braville, doing considerable damage, according to a war office report.

Italian—Aeroplanes bombarded an Austrian encampment on the lower Isonzo.

Austrian—Aircraft shelled Monfalcone basin, doing some damage to vessels at anchor there.

RUSSIANS GAIN IN BUKOWINA

London, Sept. 12, 9:55 p. m.—A dispatch to the Exchange Telegraph company from Amsterdam says:

"Emperor William has dismissed General Von Kluge, commander of the eighth division, who was held responsible for the Austro-German check by the Russians on the Sereth river, in eastern Galicia.

"General Kluge, according to the German newspapers, retired from the service at his own request and with a pension."

London, Sept. 12, 9:40 p. m.—There is still no sign of waning in the battles which are being fought along the eastern front, that now runs almost directly north and south from Riga to the Rumanian frontier. From Riga southward to the Galician border the Germans and Austrians, who are continually receiving reinforcements and supplies of munitions by railway and river, are endeavoring to force their way to the Dvina and the main trunk of the important railway lines.

The Russians continue their offensive and, according to their accounts, with excellent results. The Austro-German offensive is making slow but steady headway, particularly along the road to Slonim and Pinsk. Elsewhere the German official reports daily recount the capture of a few thousand prisoners with machine guns.

Kaiser's Big Effort.

The Germans' big effort, however, it is expected, will be made against Vilna and Dvinsk, westward of which town heavy engagements are being fought. Having reached the Dvina at Friedland and driven the Russians across the river, the Germans are in a better position to advance on Dvinsk, as there is no danger of any outflanking movement.

The slowness of the operations probably is due largely to the condition of the country and the heavy roads.

Every day's delay is giving the Russians a breathing space and enables them to make preparations for greater resistance on chosen lines protected by marshes and swollen rivers.

Activity in Caucasus.

The Russians are increasing their activities in the Caucasus, and it is

believed that the arrival of Grand Duke Nicholas will be the signal for more important operations, which will lessen the burden of the allies, who are trying to force the Dardanelles. No report has been received from the latter front for upward of a week from the allies, although it is apparent from the Turkish reports that there has been a considerable amount of fighting.

An optimistic rumor, however, is again afloat, probably due to the statement recently made by Lord Robert Cecil, under secretary for foreign affairs, that the allies are not far from a great success.

Isolated Attacks.

There has been little or no cessation of the artillery engagements on the western front. A few isolated attacks by German infantry have taken place, but, according to Paris, have been repulsed, and there have been further air raids and much bomb throwing.

Diplomats still keenly await the outcome of the Balkan negotiations. It is said that Serbia has agreed to cede Macedonia to Bulgaria if Bulgaria joins the allies, and that the latter has agreed, in case of victory for the allies, Serbia shall have Bosnia, Dalmatia, Croatia and Slavonia.

GET NEW KIDNEYS!

The kidneys are the most overworked organs of the human body, and when they fail in their work of filtering out and throwing off the poisons developed in the system, things begin to happen.

One of the first warnings is pain or stiffness in the lower part of the back; highly colored urine; loss of appetite; indigestion; irritation, or even stone in the bladder. These symptoms indicate a condition that may lead to the dreaded and fatal malady, Bright's Disease, for which there is said to be no cure.

You can almost certainly find immediate relief in GOLD MEDAL HARMON OIL CAPSULES. For more than 200 years this famous preparation has been an unfailing remedy for all kidney, bladder and urinary troubles. Get it at any drug store, and if it does not give you almost immediate relief, your money will be refunded. Prices, 50c, 50c and \$1.00. Be sure you get the GOLD MEDAL BRAND. None other genuine.—Advertisement.

FOREIGN BANKERS ARE ENTERTAINED

New York, Sept. 12.—The joint Anglo-French financial commissioners, who are here to arrange some manner of payment for the great volume of American supplies shipped to Great Britain and France, and contracted for, expect to enter upon their work in earnest this week. During their stay in this city the commissioners will establish headquarters downtown, where they will be in close touch with the financial district. It is expected that they will take possession of their offices tomorrow.

Members of the commission spent today as the guests of New York bankers at their country estates. Lord Reading, chairman of the commission, and Basil B. Blackett, the secretary, were entertained by J. P. Morgan at his Glen Cove home, and other commissioners and their families spent the day at the country home of Willard D. Straight of the Morgan firm and Frank A. Vanderlip of the National City bank. They returned to New York late tonight.

ARMENIANS ARE PUT TO DEATH

Milan, Sept. 12.—According to information from Bucharest 800,000 Armenians have been deported from Caesarea, Erzerum and other cities in Asia Minor to the interior of Turkey. Hardly a third of these here arriving at their destinations. The women and girls are sent to Turkish harems and auction sales of Armenian babies from one month to 2 years old have taken place in Constantinople.

London, Sept. 12.—The following message comes from an Armenian source in Geneva:

"The Armenian littoral is denuded of its inhabitants, who have been driven into the interior of Mesopotamia. Nearly all the able-bodied men were massacred and the remainder of the population is destitute and dying of infectious diseases.

"We earnestly beg you to address to the civilized world an appeal to have the remnants of a martyred race, who are perishing with our whole being against an appalling crime, which has no parallel, even during the age of barbarians.

MASONIC OFFICERS ELECTED.

Cheyenne, Wyo., Sept. 12.—The grand lodge of Masons, of Wyoming, has elected the following officers for the ensuing year: Grandmaster, W. H. Dickinson, Lander; deputy grand master, Herbert J. King, Laramie; senior grand warden, F. B. Kennedy, Cheyenne; junior grand warden, George E. Brimmer, Rawlins; grand chaplain, W. A. Biner, Cheyenne; grand orator, H. W. Stuchell, Riverton; grand marshal, W. I. Kirby, Sheridan; grand lecturer, O. O. Natwick, Wheatland; senior grand deacon, Harry Snyder, Lusk; junior grand deacon, E. L. Thompson, Thermopolis; senior grand steward, W. O. Wilson, Casper; junior grand steward, F. A. Holliday, Laramie.

The grand chapter of the Eastern Star elected the following officers: Grand matron, Miss Clara Dickey, Evanston; grand patron, Fred Wyckoff, Thermopolis; grand secretary, Mrs. H. Robinson, Cheyenne; grand treasurer, Mrs. D. Thompson, Casper; grand associate matron, Mrs. Carrie Fisher, Lander; grand associate patron, Harry Shadd, Shoshone; grand conductress, Mrs. H. Knittle, Douglas; grand associate conductress, Mrs. Cora Adams, Sheridan.

TYPHUS IN BERLIN.

Amsterdam, Sept. 12, via London, Sept. 13, 1:15 a. m.—The Berlin Vorwaerts reports that owing to some cases of typhus fever having been discovered in the western district of Berlin, the police have cautioned the public against the use of unboiled milk.

THE ONLY TRUE SOURCE OF LIFE ETERNAL

Christ's Human Life-Rights Imputed to Church, Given to World.

Divine Method of Selecting the Church. Deep Spiritual Truths a Cause of Separation—How We Eat Our Lord's Flesh—The Class That Drink His Blood—Our Lord's Life Laid Down at Calvary—The Merit of His Sacrifice to Be Given to the World Soon. Imputed to the Church Now.

Sept. 12.—Pastor Russell delivered an unusual address today, from the text, "Lord, to whom shall we go? Thou hast the words of eternal life."—John 6:68.

The setting of the text formed the introduction to the theme. Then the speaker explained God's method of selecting the Church of Christ, as outlined in Scripture. For nearly nineteen centuries God has been gathering a "little flock" out of all nations and denominations. With the close of this Age these faithful ones shall be made like their Lord on the spirit plane, and with Him shall be given great power for the purpose of bringing mankind back to human perfection. Not by pushing, not by thunderings or imprecations, but by the magnet of His Word, passing throughout the world. God has drawn to Himself the class He seeks. These not only make a covenant with Him, but keep it. If they have fleshly weaknesses which they cannot overcome, He makes provision for these. He is looking at the heart, the New Creature.

Eating the Flesh of the Son of Man.

The Pastor explained in detail our Lord's words, "Except ye eat the flesh of the Son of Man and drink His blood, ye have no life in you." (John 6:53) Father Adam's life was forfeited because of his disobedience; and all his children thus lost their right to life. Our Lord gave His flesh, His human nature, for Adam and all of his family. He laid down His flesh in order that the Adamic race might have the right to earthly existence. Jesus' new life is not earthly, not fleshly; He has a spirit body now. (1 Peter 3:18) Therefore He has His fleshly life to give to the world. Never having forfeited His human life, He still has the right to it. But now, glorified on the spirit plane, He will give the merit of His human life to Adam and his race at the end of the Gospel Age.

There is a difference between laying life down and giving it. Our Lord has undertaken to give His human nature for Adam's human nature. He laid down His life at Calvary, but did not then give it. One might lay down a parcel in a store, intending to get it later and give it to one of the clerks. So eighteen hundred years ago Jesus laid down His life. He still has the right to it, but will soon give it up forever, as the offset for Father Adam. Then Divine Justice will turn over Adam and all his race to our Lord, who will take His great power and reign. He will have the right to bless the world for whom He laid down His life at Calvary when He gave that life to Jehovah.

At the beginning of the Messianic Age all accounts on the books of Justice against Adam and his race will be canceled, and the great work of blessing mankind will begin. During that time Jesus will give them His flesh to eat, the merits of His sacrifice, that they may take on all those perfect human qualities which He laid down. Throughout the Incoming Age mankind will eat His flesh—appropriate the human blessings which He sacrificed for them. Those who build character worthy of everlasting life will receive that life at the end of the Age. Those who fail to build character in harmony with the Divine requirements will be cut off in the Second Death—annihilation as unworthy of everlasting life.

Drinking the Blood of the Son of Man.

To the Church are now given by faith the blessings which the world will receive actually by and by. The Church accept the Divine invitation to leave the world and become New Creatures in Christ, begotten to the spirit nature, and finally to be born of the Spirit—made like our Lord. But before they can do this, Jesus' merit must be imputed to them. That is, the human perfection which mankind will actually receive during the Millennium is imputed, counted, to the Church now by faith. Thus the Church are by faith eating the flesh of the Son of Man.

But the Church are to do more than this. They are to drink His blood—give up their human life, drink of His sacrificial cup, participate in His sufferings and His death in order to enjoy His glory. Whoever becomes a joint-sacrificer with Jesus gives up all his rights to the earthly nature. As the Father gave our Lord the higher life, so He has promised that whoever will follow in Jesus' steps will also receive the Heavenly life. The agreement to drink our Lord's blood—to share in His sufferings and death—is the special Covenant which brings us into the family of God. This is called the Covenant by Sacrifice.

HORLICK'S
The Original
MALTED MILK
Unless you say "HORLICK'S"
you may get a Substitute.

Keep Cool!

Eat lightly of meat, eggs and other "high-proteid foods".

Eat lightly of starchy foods, such as potatoes, carrots, turnips and beets.

These are the heat-makers and fat-makers—you don't need them in summer. Eat

SHREDDED WHEAT

with fresh fruits and green vegetables—the kind that grow above ground.

All the muscle-making, brain-building material in the whole wheat grain prepared in a digestible form.

Such a diet means clear brain and strong muscle for the day's work.

Serve it for breakfast with milk or cream.

Serve it for lunch with sliced bananas.

Serve it as dessert for supper with sliced peaches or other fresh fruits.

Ready-Cooked — Ready-to-Serve

LOAN MUST BE MADE TO ALLIES

St. Paul, Minn., Sept. 12.—James J. Hill will arrive in New York Monday afternoon to participate in the financial deal whereby a loan of \$500,000,000 to \$1,000,000,000 will be made to European governments.

Mr. Hill left hurriedly on Saturday night, accompanied by M. R. Brown, his confidential secretary and director of the First National bank. Mr. Hill will lay before the meeting a plan showing that if the loan is not made commerce will be paralyzed and our surplus crops useless.

Mr. Hill will insist that the loan be made to such nations as are trading with us and who are in a position to reasonably secure the loan with collateral.

AUTO HITS BUGGY.

Provo, Sept. 12.—J. T. Hale of this city was seriously cut about the face and hands by broken glass of a windshield when the automobile he was driving collided with a horse and buggy, driven by two boys, about two miles south of the city tonight. There were five boys in the car with Mr. Hale but none of them was injured. One of the boys in the buggy, the 13-year-old son of James Bailey of this city, was knocked unconscious for a few minutes, but does not appear to be injured beyond a few minor bruises. The other boy in the buggy, a son of William Harding of Provo, was not injured. The horse was badly bruised and cut, and the automobile was damaged to the extent of approximately \$100.

Mr. Hale and the boys had started to Spanish Fork, and met the horse and buggy about two miles south of Provo, at the time an automobile from the south passed the horse and buggy on the right hand side and forced it directly in front of the car driven by

Mr. Hale. The automobile struck the horse squarely, knocked it down and overturned the buggy, throwing the occupants to the ground.

AMERICAN ENGINEERS SAIL FOR ARCHANGEL

New York, Sept. 12.—The Russian-American liner Dvinsk sailed this evening for Archangel, with 408 passengers and 8000 tons of cargo. Among the passengers on board were three engineers from the Baldwin locomotive works who will superintend the assembling of 250 locomotives to be used on the new Petrograd-Kola railroad.

This railroad will give the Russians an all-year communication with the outside world.

Seward Butler, a member of the Curtiss Aeroplane company, also sailed to superintend the assembling of the aeroplanes built by his company.

A RARE BIT.

Clarence Cooney—"What's yo' goin' to cook, may I ask, Miss Mokington?"

Miss Mokington—"A Welsh rarebit." Clarence Cooney (eagerly)—"Would it be askin' too much, Miss Mokington, to save de left hind foot fo' yo' sincerely?"—Puck.
